* [redacted] Comment. The soldiers are probably part of a quota of air force recruits who have arrived in the Soviet Zone of Germany since late September 1950. [redacted]

** [redacted] Comment. Previous observations indicated that the airfield was occupied by two fighter regiments which were partially re-equipped with jet aircraft. [redacted] The information that jet aircraft made night flights is received for the first time. This is believed possible, since flights with jet planes were continually reported from other airfields. [redacted]
